Marcia, Paul and Terri –

Acting Admin Wheeler is the keynote at the Shale Insight Conference in Pittsburgh, PA which starts on 10/23 and ends on 10/25. According to the [agenda](#), he is being introduced by MPLX (Mark West Energy Partners). The title of the keynote is: *The New EPA: Fostering Responsible Environmental Protection with American Business*. In May of 2018, we settled a case with Mark West. **Ex. 5 Deliberative Process (DP)**

Paul and Terri –

Himanshu Vyas is on the agenda on a panel titled: *Reducing Methane Emissions: How State and Federal Agencies Are Regulating Methane Emissions*. **Ex. 5 Deliberative Process (DP)**

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

The session description is as follows:

State and federal agencies have recently implemented changes in regulations on the natural gas industry for reducing methane emissions. This workshop will include a discussion of the changes; how the industry will navigate the new regulations and permits, such as the Pennsylvania GP-5/5A permit, and how to implement new Leak Detection and Repair (LDAR) technologies to monitor and report compliance.

All –

I am not clear if the AO/IO will request any additional background materials for this conference. I will let you know if/when I hear something.

Thank you,
Jim
